Albanian Post receives Eurofedop and its local organisation AL.S.P.S.S.

Tirana (Albania), 06.11.2018

On 06.11.2018, a delegation of AL.S.P.S.S. under the direction of Ylli Ballta was received by the Director of Cabinet of Albanian Post, Tildi Çadri.

SHPEJT. SIGURT. KUDO.

“Fast, secured, everywhere”, is the slogan of Albanian Post. Despite other players on the market, the Albanian Post has the top position in this market with its 2500 collaborators.

It assures itself of its clientele by not refusing the discussion with this clientele, the citizens. Thanks to local meetings, structural changes have been realised. In the course of the last 11 months, results have been achieved in the field of themes such as gender equality, training, front offices and social dialogue.

We are on the eve of a crucial result. Ylli Ballta has concluded the negotiations which his organisation has been involved in, by reaching a salary increase of $\pm 15\%$.

This is important, but it is also a recognition of the efforts which our member organisation has made since many years to see their know-how recognised by the achievement of real results.

Bert Van Caelenberg praised the efforts of the Albanian management to sail a social course and underlined the necessity of transparency and the involvement in social dialogue. The training which we as Eurofedop have offered since many years to our Albanian member organisation of the postal sector has finally produced results.

The general director, absent at this meeting because of a meeting of the UPU in Bern, has taken one more step in the direction of the European *acquis communautaire* with this social agreement.
