## Albanian Post – Our trade union SPPSH manages to sign collective bargaining agreement

Tirana (Albania), 15.04.2019

After 3 years of hard struggle, our member organisation SPPSH successfully completed collective bargaining negotiations with the leaders of Albanian Post. The official signing of the collective bargaining agreement was performed on 15 April 2019, in the presence of Bert Van Caelenberg, Secretary General of Eurofedop.

Throughout the years, through regular contacts with the leadership of Albanian Post, Eurofedop had assisted its member organisation in obtaining a favourable agreement for the employees of Albanian Post.

Moreover, through the holding of Eurofedop conferences in Albania, such as the trade council Post and Telecom in 2016, it became clear that SPSSH is a strong and dynamic trade union organisation, full of positive and constructive energy and leader in its sector in Albania.

Ylli Ballta, manager of SPSSH, thanks Eurofedop for the active support and lets us know that his organisation will continue its battle for obtaining good conditions for its members of Albanian Post and fighting against irregular situations which need to be improved.
