Terrorist attack in Vienna

This morning we heard of the horrendous terrorist attack in Vienna in which four people lost their lives and seventeen other people were wounded some seriously, after gunmen opened fire at six different locations in the city centre yesterday evening. We are also aware that a Policeman was injured during the attack.

We sympathize with our Austrian colleagues in the GOD after this regrettable attack on their democracy. Our thoughts and prayers are with the families of the deceased and wounded and as a Trade Union representing Public Servants who have to deal with the results of such horrific events we know how difficult things will be for them and their members at this most challenging time.
