First Congress of the Central Administration Trade Union from Serbia Belgrade (Serbia), 12.02.2010

On 12.02.2010, the First Congress of the Central Administration Trade Union from Serbia took place in Belgrade.

Congressional elections were held for the management of the organisation and guidelines were adopted for the way in which the organisation's activities will develop in the next five years.

Njegos Potezica was re-elected president of the organisation for the next five years. He expressed the view that social dialogue is the main solution for the organisation and the objectives set forward during this Congress. It is certainly the most important step, in order to get out of deadlock situations ! Because the best decisions with social and economic implications can only be taken by mutual agreement between the three

actors : unions-employers-government.

As representative of the Executive Committee of Eurofedop, Toader PARASCHIV participated in the Congress. He wished the newly elected board much success on behalf of Eurofedop.
